

Instructions Buffer

```
graph TD; A[Instructions Buffer] --> B([Hash Function]); B --> C[Selected Bits];
```

A flowchart illustrating a data processing pipeline. It starts with a rectangular box at the top labeled 'Instructions Buffer'. A downward-pointing arrow connects this box to a rounded rectangular box in the middle labeled 'Hash Function'. Another downward-pointing arrow connects the 'Hash Function' box to a rectangular box at the bottom labeled 'Selected Bits'.

Hash Function

Selected Bits
